IV. Verification Instructions | 驗證方法說明

To verify file integrity:

1. Download the file from Arweave using the Access URL.
2. Compute the SHA-256 hash of the downloaded file.
3. Compare with the hash recorded in this document.
4. Matching values confirm the file is authentic and unaltered.

Windows (PowerShell):

```
Get-FileHash "filename.pdf" -Algorithm SHA256
```

Mac / Linux:

```
shasum -a 256 filename.pdf
```
